Agenda

- Libraries Homepage
- Subject Specialist Librarians
- Supporting Your Work, In-Person and Remotely
- Opportunities for Engagement

www.lib.umd.edu

Subject Specialist Librarians

- Provide one-on-one research assistance online, in-person, or over the phone
- Lead instruction sessions that teach your students information literacy skills and research tools
- Answer your questions about publishing, copyright issues, and preserving digital works
- Purchase materials (including data) for the University Libraries that facilitate research and instruction
- Help identify gaps in the literature when you're planning a research project

Supporting Your Work, In-Person & Remotely

GIS & Research Data Services

Our librarians provide expert guidance, project consultation, and technical assistance on various aspects of data management and curation.

DRUM: Digital Repository at the University of Maryland

Faculty and researchers can upload research products for rapid dissemination, global visibility and impact, and long-term preservation.

Author Rights, Open Access, and OER

Protect your rights as an author, and learn how to create, find, evaluate, and revise open source content for your research and your classes.

Access to Software

To ensure you can continue to have access to the software you need, the Libraries partnered with the Division of Information Technology to make software available to you through a virtual workspace.

Remote Access

Remote access to library resources is available for all current University of Maryland, College Park students, faculty, and staff. Access resources remotely using Database Finder or WorldCatUMD.

Department Delivery

Physical materials from UMD Libraries, other USMAI libraries, and ILL can be delivered directly to your department for pick-up.

Opportunities for Engagement
